

## Salone extra

**Susanne Philippson**

Nationality: German

Age: 26

Style: Refined and minimal, yet expressive and emotional

Background: Although just graduating this summer from the Eindhoven Design Academy, Philippson hasn't let that stop her from climbing the design ranks. Her "Compact" desk is already in production by Habitat after being spotted at the 2000 Copenhagen Furniture Fair, while a more conceptual project was picked up by Droog Design in 2002. Philippson has also spent seven months in Japan working at the Muji design office. This year's Salone saw the launch of a family of aluminium furniture called 'Karakta', consisting of a stool, chair, low bench and table. Inspiration: "My experience and appreciation of Japanese culture" What she wishes she had designed: The pulsating light of the Apple i-Mac computer
